

## Undergraduate Enrollment

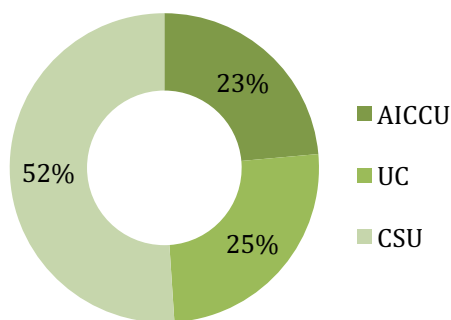

### Enrolling California's Future Leaders

California private nonprofit colleges and universities provide abundant enrollment opportunities in over 200 locations throughout the state. These locations range from traditional main campuses to hybrid satellites, a mix of full-time and part-time students, traditional and non-traditional student bodies, and from undergraduate enrollment as few as 100 to over 20,000.

Our commitment to California students is strong - approximately 76% of AICCU undergraduate students are California residents.

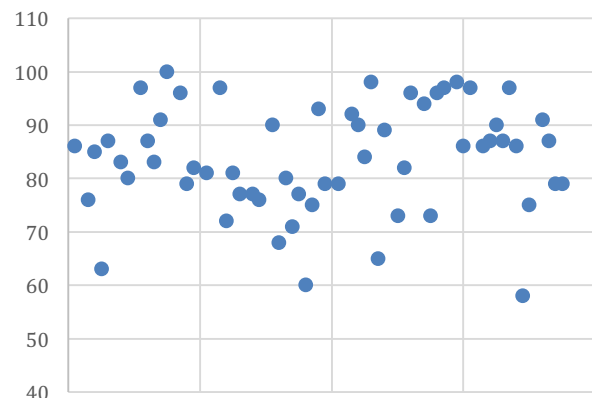

Dedicated to student success, AICCU institutions are able to retain its first time students at a high rate. The average retention rate for the sector is 84%, with a high of 100% and a low of 58%.

### California 4-year Institutions Undergraduate 12-mo Enrollment

AICCU institutions enroll over 189,000 undergraduate students annually, or 23% of California's 4-year undergraduate population.

### Fall 2014 Retention Rates by AICCU Institutions

Nonprofit California colleges and universities are engaging today's students for tomorrow's leaders.
