

Leading California in Graduate Enrollment and Advanced Degrees

California relies on an advanced workforce and graduate education to give our state a competitive advantage. California private nonprofit colleges and universities provide abundant enrollment opportunities across the state. These locations range from traditional campuses with undergraduate and graduate programs, as well as graduate only institutions.

The diversity of graduate programs among AICCU institutions allow students to find the right program for their academic and professional careers.

2014-15 Degree Completions by Sector

2013-14 12-month Graduate Enrollment by Sector

AICCU is the leader in producing highly educated individuals who will become California's next generation of leaders.

AICCU institutions enrolled over 143,000 graduate students in 2013-14, or 55% of California's graduate population.

Of the graduate students enrolled at AICCU institutions 39% are Caucasian, 16% Latino, 13% Asian, and 7% Black.
