

Providing Access to Higher Education

AICCU institutions include world-renowned research, traditional liberal arts, faith based, performing/visual arts and graduate only colleges and universities.

Over \$1.5 billion was spent on our students in institutional grant aid in 2014-15 to foster access and ensure success of all students with a dream of higher education.

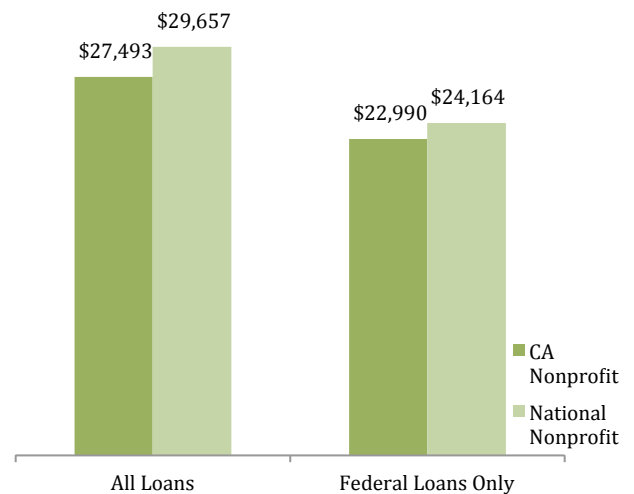

Approximately 79% of AICCU students receive an institutional grant. Additionally 27% of AICCU students receive a Pell Grant, and 16% receive a Cal Grant.

Average Need-Based Institutional Grant Award

By partnering with State and Federal aid programs, such as the Cal Grant and Pell Grant, private nonprofit colleges and universities are able to offer higher education opportunities to more students in every region of the state.

Average Debt of Graduates

Grant aid not only allows students to access higher education, but to graduate with a manageable loan debt that is on par with the national average.

AICCU institutions are committed to student access and success.
